

warpcore::MultiBucketHash  
Table::key\_load\_factor

warpcore::MultiBucketHash  
Table::relative\_storage  
\_density

warpcore::MultiBucketHash  
Table::num\_occupied

```
graph LR; A[warpcore::MultiBucketHash Table::key_load_factor] --> C[warpcore::MultiBucketHash Table::num_occupied]; B[warpcore::MultiBucketHash Table::relative_storage _density] --> C;
```

The diagram illustrates a mapping from two source variables to a single target variable. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'warpcore::MultiBucketHash Table::key\_load\_factor'. The bottom box contains the text 'warpcore::MultiBucketHash Table::relative\_storage \_density'. On the right, there is a gray rectangular box with a black border containing the text 'warpcore::MultiBucketHash Table::num\_occupied'. Two blue arrows originate from the right side of the top and bottom white boxes and point towards the left side of the gray box, indicating that both source variables contribute to or are mapped to the target variable.
